3/22/68

Dear Joel,

Sorry I had so little time in N.O. Worked intensively until Monday pm, when I returned, and since then have been with one of asst DA's, working here.

Salzman, WEKD, phoned. May be flying there for show soon, many thanks.

Pictures arrive okay in mailing dated 2/21. Have you time to explain? I've not studied, but did glance. Seems like one of officers was carrying a pump gun, which seems illogical. What interests me most is the rifle. The sight seems to be not identical with that in the Report and other evidence. Have you checked it. Can you, photographically, for me, if you have kept prints.

Againm thanks. Way behind, and a stack of mail awaits.

Sincerely,
